

For Immediate Release

Future Labs Live draws experts and leaders from science, academia, start-ups, FMGC, chemical, and agricultural industries to its conference floor in Basel, Switzerland

Sessions will cover topics from digital transformation to connectivity & collaboration, lab operations & efficiency, and more.

BASEL, Switzerland (May 27-28, 2025) – Industry leaders from across Europe and beyond will convene in Basel to explore the latest advancements in laboratory technology and the broader scientific landscape. As laboratories continue to evolve rapidly, the conference will address nine key themes that define the future of this dynamic field.

Future Labs Live 2025 will feature an esteemed lineup of speakers from globally renowned biotech and pharmaceutical companies, including AstraZeneca, GSK, Microsoft, and Novartis. Experts from leading academic institutions such as ETH Zurich, University of Cambridge, University of Toronto, as well as the food technology, chemical, and agrichemical sectors, will contribute valuable insights, ensuring a comprehensive perspective on industry progression.

“The scope of the event is specific enough to dive deeper into the Future Labs topics and broad enough to keep on surprising,” says User Team Lead R&D, Roche. Head of Engineering at Amphasys AG- states that Future Labs has a “great variety of themes, technologies and talks,” adding “Future Labs Live has been a good opportunity to catch up with trends and see smart solutions.”

Key highlights of the event include thought-provoking keynote panels with experts from Pfizer, Novo Nordisk, and CSEM. Discussions will center around critical topics such as fostering innovation in laboratory environments, advancing the concept of “open science,” investing in next-generation lab technologies, and driving transformative change. Additionally, the conference will feature a dedicated sustainability track, addressing the pressing question of whether the life sciences and laboratory industry can align with global sustainability goals for a cleaner, healthier future.

Held at the Congress Center Basel—Switzerland’s largest convention center—this premier two-day event is expected to attract over 3,000 attendees, 200 speakers, 100 exhibitors, and 40 start-ups. Future Labs Live 2025 promises to be the most diverse and engaging event in the sector, catering to professionals from pharmaceuticals, food and beverage, agriculture, and beyond. Attendees will benefit from unparalleled

networking opportunities, fostering collaborations with industry-leading experts and shaping the future of laboratory science.
